

Dear FCC,

I, Jeremy Scott McElroy, a resident Indiana for 34 years would like to keep Indiana's Telephone Privacy law like it currently is. Please do not let Consumer Bankers Association corrupt the positive progress that we the people of Indiana have fought for. I have noticed a big change in my life since Indiana's Telephone Privacy law has been effect. Instead of the telephone being a hassle from calls that I don't want, now it is a valued tool of communication working for me. Before Indiana's Telephone Privacy law, the telephone was a mechanism of "home invasion." Please keep our home peaceful and away from these unwanted invaders!

Sincerely, Jeremy Scott McElroy
